### Lesson 10 – Photo Gallery

## Photo Gallery Component

The photo gallery component makes it easy to set up a page of photos in one of four layouts: horizontal, vertical, montage, and slideshow. Thumbnail images are created automatically and captions can be added. It is a great way to display pictures of a project.

### Montage Photo Gallery

1. Open the **Practice** web site.
2. Open the **photos.htm** file.
3. Click the **middle cell** of the **third row** in the table.
4. Click **Insert > Web Component**. The *Insert Web Component* dialog box displays.
5. Select **Photo Gallery** in the *Component type* list. See Figure 1.

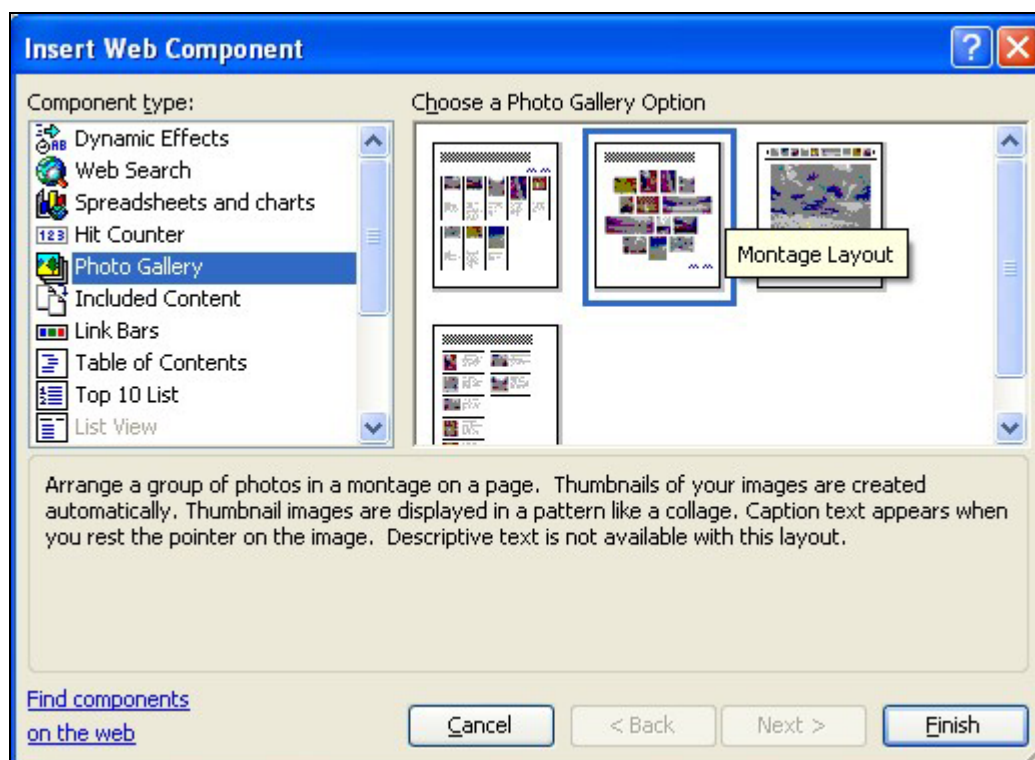

Figure 1. Photo gallery

6. Click **Finish**. The *Photo Gallery Properties* box displays. See Figure 2.

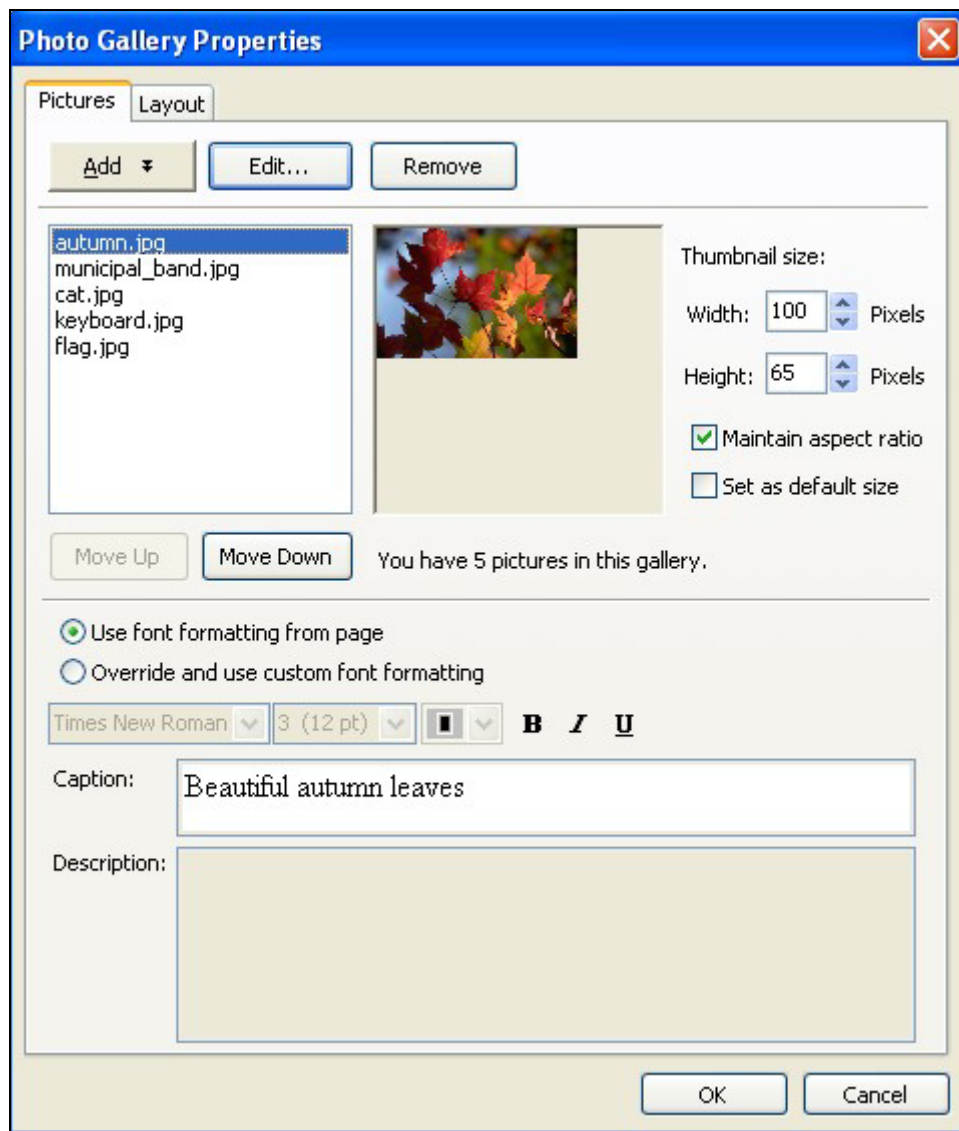

Figure 2. Photo gallery properties

7. Click **Add > Pictures from Files**.
8. Navigate to the **CD-ROM**.
9. Highlight the **autumn.jpg** file.
10. Click **Open**. The picture is added to the gallery.
11. Type the **caption**: Beautiful autumn leaves.

**Note:** Do not click **OK** until all the pictures are added.

12. Repeat steps 7 through 11 to add the following files and captions.

File	Caption
------	---------

Lesson 10 – Photo Gallery

Municipal_band.jpg	The Laramie Municipal Band
cat.jpg	Pretty kitty!
keyboard.jpg	I like working with computers!
flag.jpg	Our American flag

13. Click **OK** when all the files are added.
14. **Center** the photo gallery component.
15. Add the following text in the last cell of the third row: Click an image to see a larger view.
16. Save the page. Be sure the images are saved in the Images folder.
17. Preview the page.
18. Mouse over the images to view the captions.
19. Click the images to see the larger versions.
20. Save the file and close it.
